

From the People of Japan

Ecosystem Approach; Principles and Steps to Implementation

Conservation of Iranian Wetlands Project
"Saving Wetlands: for People, for Nature"

12 Principles of Ecosystem Approach

5 Steps to Implement the Ecosystem Approach

Develop an Integrated Management Plan in a Participatory Process by Holding a Series of Technical and Consultative Workshops with Stakeholders

Establishment of inter-sectoral Structures to Wetland Management Plan

1
Social Choice, Stakeholders Analysis, Implementation of Capacity Building, Awareness Raising Activities

3
Approval of the Integrated Management Plan at the Highest Management Levels of the Country and the Province, Signing of a Memorandum of Understanding Between Those Involved

5
Start the Process of Implementing the Management Plan by Forming Cross-sectoral Structure Meetings
