

We are not powerless against climate change

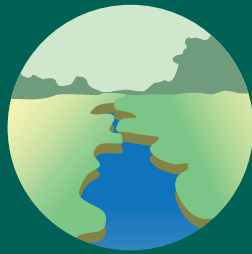

Wetlands help us cope

Absorb & store carbon

Reduce floods

Relieve droughts

Reduce storm surges and protect coastlines

Stop the loss of wetlands!

Restore

Conserve

Use wisely

Don't drain

Don't build over

Don't degrade

35% of the world's wetlands have been lost since 1970. Together we must work to conserve and restore these amazing ecosystems, which help us prepare for, cope with and bounce back from the impacts of climate change.

DANONE
ON FLOW, ON REACH
World Wetlands Day
is made possible by the
Danone Fund for Water.
